REVISED
KEYSTONE STARS: CONTINUOUS QUALITY IMPROVEMENT FOR LEARNING PROGRAMS
Center Performance Standards for FY 2014-2015

Preamble

Keystone STARS: Reaching Higher for Quality Early Learning

The Keystone STARS program was initiated in 2002 as a multifaceted approach to improving programs that serve young children in Pennsylvania. Research-based Performance Standards form the bedrock of this quality improvement program. The standards are guided by the principle that quality early learning is a foundation for children’s success, and investment in the early care and education of Pennsylvania’s children is an investment in the future. Therefore, the Keystone STARS Performance Standards reflect research-based indicators to improve outcomes for children. The standards are organized into four STAR levels that build upon each other in order to support continuous quality improvement. When a program meets the Performance Standards for a STAR level, they receive the mark of quality, a STAR designation. A Keystone STARS designation informs families that the director and staff are committed to enhancing quality for the children and families in their program.

Pennsylvania Early Learning Keys to Quality Vision and Mission

Vision: All Pennsylvania families will have access to high quality care and education for their children, fostering successful futures in school and in life.

Mission: To create a comprehensive quality improvement system in which all early learning programs and practitioners are encouraged and supported to improve child outcomes. Improvements in programming are designed to increase the capacity to support children’s learning and development; increase educational attainment among practitioners; enhance professional skills and competencies in support of children’s learning and development.

Acknowledgements

The Pennsylvania Departments of Public Welfare and Education, Office of Child Development & Early Learning, would like to thank the diverse group of programs, practitioners, Regional Keys staff and partners, and early learning stakeholders from across the State who continue to share their vision and constructive ideas in crafting an indicator based quality improvement system to improve outcomes for children in Pennsylvania. Their honest discussion of how the PA Early Learning Keys to Quality is working locally and their constructive feedback to proposed improvements continues to be invaluable to this process.

How to Interpret the Performance Standards Grid

Each STAR level builds on the previous level. Unless otherwise specified, each successive level includes all items in the previous level. Please note that there is important information housed in the footnotes throughout the document and in the STARS Worksheets. For copies of the STARS Worksheets, please contact your Regional Key. Good, Better, Best: Pennsylvania’s Continuous Quality Improvement Guide to Best Practices is an optional tool that can be used by STARS Specialists/Managers, STARS Designators, and practitioners to determine at what quality point in the spectrum a program is meeting a Keystone STARS standard. Additional information is available at http://www.pakeys.org/pages/starsDocs.aspx or by contacting your Regional Key.

Enrollment in the Keystone STARS program

Facilities that do not meet the STAR 1 Performance Standards, yet wish to begin the process of continuous quality improvement may enroll in Keystone STARS by contacting the Regional Key. By enrolling in Keystone STARS it affords facilities access to resources that will assist facilities in working toward a STAR level.

To enroll in Keystone STARS, a facility must meet the following STARS Performance Standards:

   Facility holds and posts a current DPW Certificate of Compliance.
   Complete the Keystone STARS Site Environment Checklist.
   Director completes the STARS Orientation.

1* Pennsylvania Core Knowledge Competencies for Early Childhood and School Age Professionals (CKC) replaced Core Body of Knowledge
2* Pennsylvania Big Ideas Framework(Big Ideas)
3* Individual Professional Development Plan for Early Childhood and School-Age Professionals (IPDP) transition from Professional Development Record (PDR) July 1, 2014 to July 1, 2015 at which time it will be required for Keystone STARS providers. Copies of the PDR will no longer be available for ordering or downloading.

A developmentally appropriate screening of the child is completed and shared with family within 45 days of program entry. | 1. Implement a learning curriculum that incorporates the Learning Standards, including a written curriculum statement.  
Based on ongoing child observations, developmentally appropriate authentic assessments of the child are completed and reported electronically into an OCDEL approved assessment tool following the tool's specified timeframes.  
Results from authentic assessments are used for curriculum, individual child planning, and referral to community resources. | Program utilizes a curriculum that has been aligned to the Learning Standards for Early Childhood. If the program’s curriculum has not been aligned, the provider must crosswalk the curriculum to the Learning Standards. |

---

16 For school-age children, no initial screening is required however an observation is completed and shared with family within 90 days of program entry. See SACC worksheets.
17 If the functionality of ELN does not allow for entry of the assessment information, demographic information should be collected and child assessments should be completed on paper until the program is able to enter the information online. Attempted compliance should be documented via a record of Help Desk call logs and copies of emails. Upon resolution of the issue, the provider will be responsible for entering all data into ELN.
18 Head Start providers are required to enter their data into the State Longitudinal Database System (SLDS)  
A child assessment must be completed on school-age children although it is not reported through ELN.
19 For SACC only programs, the assessment should be completed and shared with families once per year.
